ORDINANCE WOULD BAR S. F. REFUSE

Law Offered to Co. Board Monday by A. J. Witt

LEFT TO SCOTT

Existing Ordinance Said to Serve Purpose

Aimed at San Francisco's practice of dumping garbage at Bayshore tidelands of the Southern Pacific and at its contemplated program of filling in the lands at Mills Airport, an ordinance forbidding the bringing of garbage into the county from an outside source was presented to the board of supervisors Monday.

The ordinance was presented by Supervisor Albert J. Witt of Colma, who said that Burlingame and Millbrae were joining the anti-garbage forces of the north end of San Mateo county.

Witt had the ordinance drafted by a private attorney. The board referred the ordinance to District Attorney Edmund Scott for a report.

Witt's ordinance would repeal the existing county ordinance which is said to do the same thing which the new one intends to do.

Says Emergency Exists

The supervisor asked the county board to recognize the garbage situation as an emergency which needs immediate attention. He pointed out that trainloads of garbage are being brought in daily from San Francisco and that this garbage, in open railway cars, stands overnight at Brisbane.

The refuse, Supervisor Witt points out, is being dumped into the waters of San Francisco bay and is creating a condition that is a menace to the public health, welfare, comfort and safety, he declares.

Alterations Ordered

The board appropriated $440 from the unbudgeted reserve to make certain alterations at the frame building on Marshall street and Middlefield road so the premises will be suitable for the offices of County Agricultural Commissioner Max Leonard. Supervisor Poole introduced the resolution.

The county unemployment payroll in the sum of $4,666.50 was approved.

Granting of a franchise to James J. Roddy for a water system in Pedro Valley, approved by the state railroad commission, was continued to May 29 by the board.

Oppose Senate Bill

W. H. Moulthrop of Redwood City was endorsed by E. W. Clapp, general passenger traffic manager of the Southern Pacific, for the post of chief executive.

The Daly City barter group was given another 350 gallons of gasoline to carry on their work on motion of Supervisor C. V. Thompson. The barter group is caring for 52 families without cost to the county.

County Assessor Daniel Flynn asked the board to urge Governor Rolph to veto Senate Bill No. 476 which deals with refund of tax payments. The board ordered a telegram sent to the governor.

Defendants are Thomas Glover, 322 Omar street, Los Angeles, driver of a truck which was involved with Wyatt's car in the crash; Elare Morris, owner, and the Basich Bros. Construction Company of Los Angeles.

Bill's Effect on Junior Colleges Shown by Cloud

A bill still remaining on the legislative files of especial interest to junior colleges, according to Roy W. Cloud, state executive secretary of the California Teachers' Association, is assembly bill No. 2345 by Assemblyman Rogers of Los Angeles. It provides an appropriation from the general fund to make up an existing deficiency in the state appropriation for junior colleges.

By the present law the state allows $100 annually for each student in average daily attendance at a junior college on the theory that the junior colleges are economic factors in relieving attendance pressure at the state universities.

The $100 allotment is not a constitutional provision but is established by legislative enactment, as explained by Secretary Cloud, and has this year been reduced to $48, due to varied budgetary pullings and haulings. The full amount must be provided if the junior colleges are to continue to function normally. The difference of $52, unless the legislature passes the Rogers bill, must be made up by the junior college districts, aided by adjacent communities whose students attend junior colleges.

From San Francisco, for instance, 550 students attend the San Mateo Junior College and 110 attend the Marin Junior College. San Francisco, having no junior college, already pays its pro rata for each student attending either of the two neighboring colleges. But in addition San Francisco will have to make up the difference of $52 for each student so enrolled at either Marin or San Mateo if the Rogers deficiency bill is not passed. This amount would be approximately $330,000. Likewise the junior college districts of the state will each have to make up the $52 deficiency for each of the students enrolled from their individual home districts.

"The San Francisco condition," said Cloud today, "applies likewise to all junior college districts and to neighboring communities outside such districts that send students to junior colleges."

Cypress Lawn Famed for Its Great Beauty

It is perhaps not generally known in San Francisco that Cypress Lawn Cemetery is conceded to be one of the foremost institutions of its kind in the world today. This wonderfully well kept memorial park was founded in 1892 through the efforts of H. H. Noble, upon the perpetual care plan. Located about ten miles south of San Francisco along the state highway, with the San Bruno mountains rising immediately to the rear, Cypress Lawn is one of the most picturesque and beautiful spots in America.

Effect of Riley-Stewart Tax Plan On Schools Told at Local Meeting

At an open dinner meeting of the governing board of the San Mateo County Teachers' Association Monday in the Sequoia Union High School cafeteria, attended by board members and other teachers of the county numbering 200, provisions of the Riley-Stewart taxation proposal and its effect upon the state school system were outlined by Roy W. Cloud, executive secretary of the California State Teachers' Association.

Mr. Cloud spoke favorably of the Riley plan to eliminate the income tax on corporations and substitute a county property tax upon them. He also explained the changes in school financing which would result from the proposed taxation revision.

The governing board adopted a four-fold program planned to provide for teacher development in the event the institute law is repealed. The repeal bill eliminating teachers' institutes has passed both houses and awaits the governor's signature.

To Replace Institute

Substituting for the institute would be the following program:

1. Lectures on mental hygiene by recognized psychiatrists.
2. Local study groups to consider social and economic problems.
3. Seminars on taxation as concerning schools and state. This was amended to provide an appointive body to report its studies to the county association.
4. Formation of teacher groups for cultural advancement.

Further means of professional growth is offered in a list of books on varied subjects in addition to education, submitted by Howard Bohnet of the San Mateo high school for a committee of which Charles W. Batdorf is chairman.

Guests Present

Guests for the evening included Mrs. E. I. Bartlett, retiring president of the 17th district, Congress of Parents and Teachers, and her successor, Mrs. John J. Garland; Sam D. Merk, chairman of the citizens' committee on unemployment, and Mrs. Merk and Miss Pansy Jewett Abbott, county superintendent of schools. The office of P.-T.A. county president has been given honorary membership on the governing board.

Vocal solos were sung by Fred Roehr of the San Mateo Junior College faculty.

F. M. Stanger, president of the county association, presided. Others at the speakers' table were Mrs. Margaret Gillen, vice-president; Miss Marie Traynor, secretary-treasurer; Mrs. Frank Boren, C. W. Batdorf, R. L. Gray, Henry C. Hall and Mrs. A. S. Kalenborn.

Last Block of County Bonds Will Be Sold

Sale of the remaining block of $124,000 worth of county relief bonds was ordered Monday by the board of supervisors.

The first issue sold was for $112,000 and the second for $114,000. The third issue, now offered, is the balance of the $350,000 worth of bonds approved by the voters last November.

Sam D. Merk, chairman of the citizens' relief bonds committee, advised the board to offer the bonds for sale at this time as a better bid is expected now than in the months to come.

The board, upon motion of Supervisor Rosalie Brown, instructed Clerk Elmore B. Hinman to offer the bonds for sale. No date was set for receiving the bids, but the time will be fixed in the advertisement offering them for sale.

Judge O'Connor, Who Spent Early Days Here, Dies

Word was received in Redwood City of the passing of the Hon. William A. O'Connor, judge of the superior court of Nogales, Arizona, last week. He spent most of his boyhood days here and attended the local school in the 70's.

In 1879 the family moved to Napa, where he completed his education and fitted himself for the teaching vocation. Later he studied law and passed the bar examination in Arizona where he practiced for many years. Later he was elected superior judge of Nogales, an office that he held for several terms.

Judge O'Connor was a visitor in Redwood City last summer and saw many of his old boyhood chums. He was a warm friend and school-mate of James V. Swift, who passed away several months ago.

17 Receive Seal Awards Today at R. C. High School

As a result of their service in all lines of school activities while at Sequoia, 17 students received seal awards in an assembly held during the activity periods today at Sequoia Union High School. These awards are the highest service distinctions that can be earned at Sequoia, and a student must have been an all-around Sequoian to receive one.

Jack Murphy, of Stanford University, graduate of Sequoia in '32 and former commissioner of boys' activities, was the speaker. It was during his administration that the seal award system was organized, and Murphy helped make it a success. Donald L. Bogie, dean of boys, presented the awards.

Formation of a "condemnation board" whose duties it will be to investigate building and premises for fire hazards and unsanitary conditions was effected by the city council Tuesday night.

The San Mateo County Board of Supervisors decided late yesterday to submit to the electorate June 27 the proposal to form a county-wide port district.

Protests to including the lands of the Standard Dredging Company at Belmont, developers of "Port San Francisco," were waged by Attorney Ernest Wilson of San Mateo and C. F. Gutheridge, vice president of the concern.

Wilson's arguments were that the Redwood Harbor project would be a competitor of the private port planned for the Belmont area.

Petitions were also presented which asked the exclusion of North Palo Alto and surrounding area, and property in Burlingame, San Mateo and Hillsborough.

The supervisors ruled, however, that the protests were not sufficient to keep the matter off the June ballot, leaving the decision as to whether there should be a port district or not up to the vote of the people.

Carl Stoner, president, and Howard Wood, secretary, of the county-wide harbor committee; City Attorney Albert Mansfield, W. H. Morrissey and others, presented the harbor case. Congressman John J. McGrath wired from Washington advising the board to take the course it did.

Supervisor John W. Poole, Redwood City, and Albert Witt, Colma, urged that the people pass on the question by their votes to introduce the resolution. The board's vote was unanimous.

An Unjust Tax

A special election will be held June 27, 1933. In this election Proposition No. 4 is of great importance to the voters of California and deserves their hearty support.

The proposed amendment will relieve from taxation, private non-profit schools only. It makes no change in the law respecting schools operated for profit.

The proposed tax relief is in no sense a subsidy; it is a mere lifting from private non-profit schools of an unjust tax burden, in recognition of the fact that they, annually, save the state more than twenty-five times the amount of the taxes of which the state proposes to relieve them.

The justice of the measure is evidenced by the fact that it had the almost unanimous approval of the California legislature. It passed the assembly without a dissenting vote, and had only two votes (out of forty) against it in the senate.

California is the only state in the union which taxes private non-profit schools. Its past policy in this respect has been a blot upon our reputation for justice and fair dealing.

Taxation, in a true sense, is a governmental exaction to defray the cost of government service. No tax can justly exceed the cost of the service rendered, nor can government justly tax for a service it does not render, but which is rendered by a private agency without cost to the government. A tax against a private agency in such a case is in reality a penalty and not a true tax.

Private non-profit schools which render an educational service without cost to the government should not be penalized (under the guise of taxation) for rendering such public service.

Private non-profit schools in California annually educate more than 100,000 children whose education in the public schools would cost the state not less than $12,500,000, in addition to a capital investment for new school buildings of not less than $20,000,000. These schools annually save the taxpayers of California more than twenty-five times the amount of the penalty tax which the state is now imposing upon them. This is not fair nor just nor economically sound.

Judge Is Vindicated

Judge Louderback's exoneration by the senate of the United States on impeachment charges brought by the house of representatives is pleasing to the judge's friends in the state. The charges should never have been brought against him. A few disgruntled San Francisco attorneys were behind the accusations that fell flat before the senate when the true facts were brought out by Walter H. Linforth, attorney for the accused judge.

Judge Louderback has been vindicated, as he should have been, and he may return to the federal bench with the full confidence of the people.

Figures taken from the New York Insurance Press show that $24,300 was paid out in Redwood City during 1902 as death benefits. This amount was paid by the insurance companies and the local lodges.

The new ten-inch well recently bored at the West Shore Salt Works was inspected yesterday and has proven a great success. The town will be furnished water from this well and another close by. Both wells have a daily capacity of 200,000 gallons. Civil Engineer C. E. Moore of Santa Clara was here yesterday to advise with the directors of the salt company. He has been employed by them to look after their interests.

The first exercises of commencement week of the Sequoia high school will be held in assembly hall tomorrow afternoon at 4 o'clock, when Mr. Smith of Campbell will deliver the baccalaureate sermon. Immediately thereafter the annual tree planting will occur.

On Friday night next the graduation exercises will take place. On this occasion the 15 members of the senior class will receive their diplomas. Following are the names of the graduating class: Hetty Allen, Roy Curran, Isabel Dennison, Mildred Halsey, Viola Hanson, Edith Kelley, Deene Lininger, Ethel McEvoy, Grover McNamara, Claire Murray, Stanley Rice, Lee Ross, Ethel Rosseter, Mildred Smith and Carrie Smith. While government costs go up —electric rates go down

1921
1933
Cost of Government has INCREASED 114.9%
Population of State has INCREASED 52%
Cost of Electricity has DECLINED 42%

Here are three interesting pictographs. Every taxpayer should give thoughtful consideration to the timely facts they show.

Every citizen is paying a great deal more for the support of government today than he paid twelve years ago. Of the money you pay for electricity, 11 per cent is tax money for the support of government.

Increase in cost of government has been far out of proportion to the increase in population.

But the kilowatt hour cost of electricity in the home is lower today than ever before.

General living costs are even today 28.5 per cent above the Pre-War Level of 1914; electricity for the home is 25 per cent below that level. Electric rates trend steadily downward. They are still 53.5 per cent lower than general living costs.

Australia's Attractions Shown Here

A country equal, almost, in size to the United States.

Land of queer natives and queerer animals.

Land of gorgeous birds, vast sheep stations, prosperous cities.

Possible future center of the British empire.

Thus Arthur H. O'Connor, representative of the Australian National Travel Association, pictured Australia in an illustrated lecture given for the Redwood City Exchange Club in Hotel Sequoia Tuesday night.

His talk was marked by motion pictures and colored slides of his subject.

Australia has suffered from the depression, but has weathered the storm and is on the rebound, said O'Connor. He cited figures and Australian bond quotations to support his statements.

Law is so rigid, and the judiciary system of life tenure for judges so strict, that crime is minimized, he said. "We are not more honest than others, but it is harder to get away with crooked work," O'Connor declared.

Gangs were broken up, he said, by passage of a law making it a felony for criminals to be seen together. They can be arrested on sight if found in each other's company.

Chairman of the evening was Kendall Towne.

There will be no meeting of the club next week on account of Memorial Day.

An Xenia, Ohio, woman, 102 years old, was buried in her wedding gown.
